

Axess Innovations Consulting is a senior firm in Maryland. We deliver cyber operations, intelligence and mission support, data science, and software engineering to our own standard, inside the customer's guardrails.

### CORE COMPETENCIES

#### Cyber operations

Defensive and offensive-informed cyber and computer network operations in mission environments.

#### Data science & analytics

Machine learning, NLP, and decision analytics for mission datasets.

#### Systems engineering & advisory

Requirements, architecture, RMF-aligned support, and independent assessment.

#### Intelligence & mission support

SIGINT, digital network analysis, target development, and all-source fusion.

#### Cloud & software engineering

Mission-critical software, DevSecOps, cloud-native delivery, and data engineering.

#### AI enablement

Applied AI and automation for analysis, search, and decision support.

### DIFFERENTIATORS

- ▶ Founded by intelligence analysts and targeters whose work supported special operations.
- ▶ We work inside the customer's process and security posture, and we hold the work to our own standard.
- ▶ DCAA-aligned recordkeeping and clean corporate hygiene from day one.
- ▶ Senior practitioners with careers inside national-security programs.
- ▶ No bait-and-switch: the senior people who scope your engagement deliver it.
- ▶ Builders first: our internal platforms are held to the same bar as client work.
